- **System-Wide Overcrowding in Sri Lankan Prisons and Mitigation Measures**

According to the Prison Statistics of the Department of Prisons, as at 31 December 2025 the inmate population stood at 38,695 against an approved accommodation capacity of 10,395, resulting in an overall overcrowding level of approximately 372 percent across the prison system. In view of this critical and unsustainable situation, a series of interim and remedial interventions were implemented during 2025 as temporary measures to reduce congestion in the most severely overcrowded correctional institutions.

- As an interim measure to address severe overcrowding, inmates from Colombo Remand Prison and New Magazine Prison were temporarily transferred to Pallansena and Bossa Prisons, respectively, while inmates from Mahara Prison were transferred to Dumbara Prison and those from Matara Prison to Angunakolapellesa Prison.
- As another interim measure to alleviate overcrowding, inmates from Negombo Prison who are required to be produced before the Puttalam and Anamaduwa Courts were transferred to Wariyapola Prison, while inmates from Wariyapola Prison who are required to appear before the Rambadagalla and Pilessa Courts were temporarily relocated to Dumbara Prison.
- Construction of temporary ward facilities was initiated in 2025 at Welikada Prison, New Magazine Prison, and Colombo Remand Prison to relieve overcrowding pressures.

- iv. To address overcrowding through mid-term interventions, the abandoned maternity hospital at Mahamodara, Galle owned by the Ministry of Health and the store complex at Paragama, Kegalle owned by the Department of the Food Commissioner were transferred to the Department of Prisons for development as temporary correctional facilities. Provisions for these development activities were facilitated by the Budget proposals 2026.
- v. To ensure a sustainable response to overcrowding, the necessary financial provisions were allocated for the construction of two-storey accommodation blocks at Watereka Prison to house inmates from Colombo Remand Prison, the relocation of Matara Prison to Kotawilawatta, and the expansion of Wariyapola Prison in 2026.
- vi. The final phase of Dumbara Prison construction will be initiated, further increasing the facility's inmate accommodation capacity.

A skills development program for convicted inmates was implemented across 27 prisons to enhance vocational competencies, recognizing that approximately 65 per cent of inmates are of working age, with many approaching the upper age limit of 40 years. Targeted training programs were conducted in collaboration with accredited vocational training institutions to provide inmates with marketable skills, enabling future employment and formal certification of their competencies. In alignment with the national policy framework, “*A Thriving Nation – A Beautiful Country*”, and under the vision of establishing a humanitarian and lawful prison system, a budgetary allocation of LKR 100.00 million was provided for the program. During 2025, a total of 10,456 inmates participated in 252 training programs conducted under this initiative.

- **Enhancement of the Department of Prisons Vehicle Fleet to Optimize Service Delivery**

During the year, the Department of Prisons strengthened its operational and infrastructural capacity through the strategic procurement of vehicles and equipment, utilizing a total of LKR 785.0 million. This included 10 vans and 30 prison buses to ensure safe and efficient transportation of inmates, three tractors to support prison-based agricultural development initiatives, and five gulley bowsers to enhance sanitation and hygiene facilities across correctional institutions.

- **Increasing the number of community correction orders**

The community-based correction orders, which is an alternative punishment system to imprisonment, has been identified as the most successful mean alternative to punishment system. Accordingly, the target of increasing the number of correctional orders to 15,000 in the year 2024 was successfully achieved, increasing the number of order recipients to 15,631 by the end of 2024. Accordingly, a target was given to increase the number of order recipients to 16,000 for the year 2025, and it has been reached to 19,203 by 31.12.2025.

2.4. Conclusion

The year 2025 has been a significant and challenging period for the Ministry of Justice and National Integration, marked by both constraints and achievements. Several factors influenced the overall performance of the Ministry during this fiscal year. One of the key challenges was the limitation of funds under the interim budget, which released provisions only for the first four months of the year. As a result, the preparation of a comprehensive action plan for the entire year was constrained.

In addition, the introduction of the new Procurement Guidelines aimed at strengthening financial discipline and transparency brought about several procedural changes, including the need for multiple approvals, the establishment of additional committees, and the management of price variations. These requirements, combined with limited staff capacity, resulted in delays in project implementation. Court construction projects also faced practical difficulties, as work had to be carried out without disrupting judicial proceedings. Furthermore, the new conditions imposed by government institutions for advance and performance guarantees caused additional administrative delays due to the removal of Cabinet approval requirements under the newly introduced Procurement Guidelines.

Progress in legal reforms was also affected by the shortage of human resources in the Legal Draftsman's Department, which plays a pivotal role in drafting and amending laws. Nevertheless, the Ministry maintained its commitment to transparency and accountability in lawmaking by consulting experts, stakeholders, and the public. As of the end of 2025, 14

expert committees were functioning, 11 key law amendments were nearly completed, and five draft laws were referred to the Law Commission for further action.

A delay in appointing Boards of Directors for certain State-Owned Enterprises (SOEs) under the purview of the Ministry also contributed to slower institutional performance. Meanwhile, the justice sector continued to experience a human resource shortage. Out of the total 6,026 approved cadre positions, approval was received to appoint 2,867 officers, yet recruitment challenges continued to affect operational efficiency.

Despite these challenges, the Ministry was able to record considerable progress across many of its thrust areas during 2025, including the modernization of infrastructure, the introduction of digital justice initiatives, and the expansion of access to justice through new and re-established courts.

In conclusion, I wish to respectfully acknowledge the Hon. Harshana Nanayakkara, Attorney-at-Law, Minister of Justice, for his outstanding leadership in guiding the Ministry to achieve remarkable progress amidst these complex challenges. I also wish to place on record the appreciation of Hon. M.M.M. Munir Mulafer, former Deputy Minister, for his valuable contributions toward promoting national integration.

Further, I extend my sincere appreciation to the Hon. Chief Justice and the Judicial Service Commission for their dedicated commitment to establishing an efficient and effective judicial system. Finally, I express my heartfelt gratitude to my team of officers at all levels, who, despite limited resources, have continued to serve with dedication, integrity, and professionalism, and to all Departments and Institutions under the Ministry that have worked tirelessly to fulfill their respective mandates in pursuit of a fair, independent, and transparent system of justice.

This report contains my comments and observations on these financial statements submitted to the Ministry of Justice and National Integration in terms of Section 11(1) of the National Audit Act, No. 19 of 2018 (as amended). The Auditor General’s report required to be submitted in terms of Section 10 of the National Audit Act, No. 19 of 2018 read in conjunction with Article 154(6) of the Constitution of the Democratic Socialist Republic of Sri Lanka will be presented in Parliament in due course.

In my opinion, save except for the effects of the matters set out in paragraph 1.6 of this report, the financial statements of the Ministry of Justice and National Integration for the year ending as at 31st December 2025 present fairly, in all material respects, the financial position, financial performance and cash flows of the Department in accordance with the basis of preparation of the financial statements set out in Note 1 to the financial statements.

1.2 Basis for qualified opinion

My opinion is based on the matters set out in paragraph 1.6 of this report. I conducted my audit in accordance with Sri Lanka Auditing Standards (SLASA). My responsibilities under those auditing standards are further described in the section entitled Auditor's Responsibilities for the Audit of the Financial Statements of this report. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

1.3 Emphasis of a matter - Basis of preparation of financial statements

I draw attention to Note 1 to the financial statements which describes the basis of preparation of these financial statements. The financial statements have been prepared for the use of the Ministry of Justice and National Integration, the General Treasury and the Parliament in accordance with the Government Financial Regulations 150 and 151 and Public Accounts Guideline No. 02/2025 dated 17th December 2025. Hence, these financial statements may not be suitable for other purposes. My report is intended only for the use of the Ministry of Justice and National Integration, the General Treasury and the Parliament of Sri Lanka. My opinion on this matter is not modified.

1.4 Responsibility of the Chief Accounting Officer in respect of the Financial Statements

The Accounting Officer is responsible for the preparation of financial statements that give a true and fair view of all material aspects in accordance with Government Financial Regulations 150 and 151 and Public Accounts Guideline No. 02/2025 dated 17th December 2025, and for determining such internal control as is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In terms of section 16 (1) of the National Audit Act No. 19 of 2018, the Ministry shall keep proper books and records of its income, expenditure, assets and liabilities to enable the preparation of annual and periodic financial statements.

In terms of subsection 38(1)(c) of the National Audit Act, the Accounting Officer must ensure that an effective internal control system is established and maintained for the financial control of the Ministry and must periodically review the effectiveness of that system and make necessary changes to ensure that the system operates effectively.

1.5 Auditor's Responsibility for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes my opinion. Reasonable assurance is a high level of

assurance but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect material misstatements. Fraud and error, individually or in the aggregate, can cause material misstatements, the significance of which depends on the economic decisions that users make on the basis of these financial statements.

As part of my audit in accordance with Sri Lanka Auditing Standards, I exercised professional judgment and professional skepticism during the audit.

- I further designed and performed audit procedures that were appropriate to the circumstances to identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, in providing a basis for my audit opinion. The effects of fraud are greater than those of material misstatements due to misrepresentation because they arise from fraud, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.
- The structure and content of the financial statements, including disclosures, were assessed to be appropriate and fair in the financial statements, reflecting the underlying transactions and events.
- The financial statements were assessed for their appropriate and fair presentation of the underlying transactions and events, including disclosures, and the overall presentation of the financial statements, including disclosures.

I report to the Accounting Officer significant audit findings, significant internal control deficiencies and other matters identified during my audit.

1.6 Comments on the Financial Statements

4.1.1 Failure to Achieve the Expected Level of Output

- (a) Although judicial functions and related planning activities are carried out by the Judicial Service Commission, facilitating the administration of the courts of justice, performing all activities related to the overall administration systematically and efficiently, including the prevention of delays in the administration of justice within the court system, and introducing modern technology for that purpose are the functions of the Ministry of Justice and National Integration. However, according to the information presented, 22,431 cases in 27 High Courts, 5,109 cases in 14 Civil Appellate High Courts, and 637,737 cases in 122 District Magistrate Courts remained unresolved at the end of the year under review.
- (b) The total volume of labour disputes pending resolution in 39 Labour Tribunals as of January 01, 2025, was 3,396, and 1,419 new labour disputes had been filed during the year under review. Out of the total of 4,815 labour disputes to be resolved by the end of the year under review, 1,753 labour disputes had been resolved, and the progress of resolving labour disputes during the year under review remained at a minimum level of 36 percent.
- (c) Although the supervision of institutions belonging to the Ministry of Justice and National Integration is a function of the Ministry, 72 courts had submitted cases to the Government Analyst's Department before June 30, 2025, to obtain analyst reports regarding illicit drugs. However, the analyst reports for 5,589 illicit drug cases submitted before June 30, 2025, had not been received by those courts even by the end of the year under review. This had become one of the reasons for the delay in concluding cases.
- (f) The relevant courts had failed to take action to submit 910 illicit drug cases, filed before September 30, 2025, to the Government Analyst's Department to obtain analyst reports.

The cost of Rs. 16,920,163 had been incurred for these projects, and the physical progress of the 06 projects ranged between 0 and 10 percent.

4.1.3 Delays in Project Execution

According to the Action Plan for the year under review, although the construction of the remaining portions of projects, namely, the two court buildings in Dehiattakandiya and Hingurakgoda, the Monaragala District Magistrate Court building, the Wellawaya New Court building, and the Chilaw Additional Magistrate Court building, was planned to be commenced and completed within the year under review, the preparation of estimates for them had not been finalized as of the present date.

4.1.4 Projects with No Progress Despite Release of Funds

Projects planned to be commenced under provisions of Rs. 26,266,822 allocated for 14 projects in 06 High Court Zones during the year under review had not been commenced during the year due to reasons such as the non-participation of bidders, absence of technical officers, insufficiency of procurement time, and the lack of recess periods for courts.

- (b) In terms of Financial Regulation 586 (2), according to the fines register maintained by courts, a sum of Rs. 13,923,040 in fines relating to 12 courts for cases imposed before July 01, 2025, was still further to be recovered as of April 30, 2026.
- (c) Although approval had been granted by Cabinet Decision No. අම/24/1055/618/047 dated June 11, 2024, to transfer the land of 01 acre and 30.44 perches where the Gampola New Court Complex is constructed to the Ministry of Justice, subject to transferring the land where the old Gampola District Magistrate Court is currently located to the Urban Development Authority for an urban development project, neither the acquisition of the land of the new court complex to the Ministry nor the handing over of the old land had been finalized. Furthermore, due to this reason, the old court building and official quarters had remained idle for a period of 03 years.
- (d) According to the balances shown in the Reconciliation Statement of the Public Officers' Advance "B" Account, there was a discrepancy of Rs. 13,264,923 between the total of the individual loan balance classification summary and the balance of the Departmental Control Account.
- (e) A loan balance totalling Rs. 41,133,960 was due to be recovered, consisting of Rs. 8,852,412 from 73 retired officers, Rs. 5,496,309 from 31 deceased officers, Rs. 11,660,481 from 81 interdicted officers, and Rs. 15,124,758 from 102 officers who have vacated their service.

5.2 Achievements and challenges in fulfilling sustainable development goals

➤ Introduction

Sustainable Goal 16 is relevant to the justice sector. The goals identified under it internationally are very broad and the institutions in Sri Lanka that contribute to achieving those goals are located under various ministries. Indicators have been created to achieve those goals, and according to 16.3.2, the indicators that can directly report information are the total number of prisoners and the number of un-sentenced prisoners. According to 16.6.1, the total annual allocation and the amount spent.

Apart from the above two direct indicators, several other substituted indicators have been identified. In relation to 16.2.3, the number of cases disposed in relation to the number of child abuse cases reported to the courts has been identified. However, since the resolution of cases in the courts is entirely within the purview of the Independent Judicial Commission, which falls under the subject of judicial administration, there is a practical problem in setting targets for this indicator. Similarly, for 16.3.3, a substituted indicator has been constructed based on the disputes reported to the courts, Mediation Boards, and Debt Conciliation boards. Furthermore, for 16.b1, a substituted indicator has been constructed based on the number of fundamental rights petitions filed in the Supreme Court.

According to the scope assigned to the Ministry and the Departments and Institutions coming within its purview, application direct indicators are very rare and we are looking forward to identifying alternative indicators in the future. In this regard, the vacancy of the post of Statistical Officer in this Ministry for many years has been a biggest challenge. Many requests have been made for this and the Department of Census and Statistics has informed that an officer will be appointed for the post in the future.

Steps have been taken to fill some of the vacancies in senior level posts in the Ministry through acting appointments. However, due to the vacancies in secondary level posts, difficulties have arisen in the smooth functioning of the Ministry.

Head 228

Due to the existence of vacancies of employees at the primary level in the courts, it has become difficult to work in many courts. A total of 178 were recruited to the Courts in making permanent appointments to Multi-purpose Development Assistants. However, the Judicial Service Commission has reported that, the number of posts in the primary service category currently approved for the courts is insufficient due to the number of cases and duties.
